## Makes the Top 50 on PROFIT W100 List

Shannon Williams, Vice-President of CARMA Billing Services

**C**ARMA Billing Services was recently ranked 49th in the 13th annual PROFIT W100 ranking of Canada's Top Female Entrepreneurs. This is the first appearance for CARMA Billing Services on the list. CARMA Billing Services specializes in billing residents of multi-unit buildings for their individually metered utilities.

Ranking Canada's Top Female Entrepreneurs on a composite score based on the size, growth rate and profitability of their businesses, the PROFIT W100 profiles the country's most successful female business owners. Published in the November issue of PROFIT and online at [www.PROFITguide.com](http://www.PROFITguide.com), the PROFIT W100 is Canada's largest annual celebration of entrepreneurial achievement by women.

"We are incredibly excited about making the top 50. CARMA Billing Services began as three women in an 800 square foot room and has grown by 232% and now occupies a 4500 sq. foot of a newly built office in Lindsay, Ontario." says Shannon Williams, Vice-President of CARMA Billing Services. "I couldn't be more proud of what we have achieved as a company; it is a testament to the power of what women working together can achieve.

I believe we are the best utility billing service provider in Canada and have built the most knowledgeable customer support team in the business."

"The PROFIT W100 are a diverse group of entrepreneurs united by their passion, dynamism and smarts," says Ian Portsmouth, PROFIT's Editor-in-Chief. "They set a tremendous example for business leaders of all kinds, and we are proud to recognize them in our 13th annual ranking of Canada's Top Female Entrepreneurs."

### About CARMA Billing Services

Founded in 1977, CARMA Billing Services is a Canadian owned and operated manufacturer and distributor of Submetering and Billing Solutions. With close to 200,000 meters installed, the CARMA metering and billing solution has been installed in condominiums, rental apartments, shopping centres, office towers and school board environments and has helped building owners take control of their electricity and utility costs. ■■
